RN and LPN Refresher Theory
This online program provides a comprehensive overview of medical surgical nursing, pharmacology, dosage calculations, clinical nursing skills, techniques and a hands-on lab. This course provides an opportunity to review, learn, and practice in a non-threatening environment, enabling students to progress towards contemporary nursing practice. The course lets students apply learned skills using many drills and exercises. Text books not included in cost.

Online Learning System
Up to 9 months to complete program
$599

RN Refresher Skills Lab
In addition to the online course work, there is one 8-hour lab with opportunities to be announced by the program manager. The lab requires a separate registration, fee and lab kit purchase. This hands-on practice of skills allows students to practice their skills before reentering the workforce. Contact the program manager at 317-917-5993 to schedule this lab as you approach the completion of your RN Refresher Theory program. Lab kit cost not included.

**Next lab is April 1, 2017

Schedule lab near course completion. Call 317-921-4480 to schedule $265
