Creating and Sustaining Quality Nursing Environments

May 19 and 20, 2021
9am-12pm and 1pm-4pm EDT each day

Facilitators

Susan Luparell, PhD, RN, CNE, ANEF

Susan Luparell is a faculty member at Montana State University where she teaches in both the baccalaureate and graduate nursing programs. A Fellow in the Academy of Nursing Education, Susan is a nationally recognized speaker, researcher, and author on the topic of civility and incivility in nursing and nursing education, and the important role of educators in mitigating the issue. As a consultant her goal is to help faculty learn tangible strategies they can immediately use in their day to day work with students. Susan earned a Bachelor of Science in Nursing from Bradley University, a Master of Science in Nursing from the Medical College of Georgia, and a doctorate from the University of Nebraska-Lincoln in Administration, Curriculum, and Instruction with an emphasis in Higher Education. Prior to moving into academia, she practiced as Clinical Nurse Specialist in the acute care setting.

Dr. Judy Herrman, PhD, RN, CNE, ANEF, FAAN

Following a long career in nursing education at clinical agencies, associate degree, and baccalaureate degree settings, Judy is eager to assist nurse educators and schools of nursing meet their educational and organizational goals. Judy has expertise in presenting about and fostering faculty success in creative teaching strategies in classroom and clinical arenas, team building and leadership, curriculum development and evaluation, item writing and testing practices, accreditation, NCLEX(R) across the curriculum, Next Generation NCLEX(R), generational aspects of nursing education and practice, and fostering learning and brain science. Judy combines learning theory, best practices, and new evidence to ensure learner and faculty-focused presentations while using innovative methods and humor to reinforce key components of learning and nursing education. Authoring the books [Creative Teaching Strategies for the Nurse Educator](#) and [Fast Facts on Adolescent Health for Nursing and Healthcare Providers](#) has provided Judy with the opportunity to share strategies and information around the nation.

Krista Simmons, MSN, ANP-C, CNL, CNE

Krista is a nurse educator with a passion for creating a positive student-centered learning environment. With over 15 years of experience, she has worked as a bedside nurse (PCU, ICU, and Med-Surg), and 10 years as an Adult Nurse Practitioner (Cardiology and Anesthesia). Krista is an Assistant Professor at Saint Louis University and teaches a variety of courses in the Prelicensure Program. She is also a Certified Nurse Educator and Clinical Nurse Leader. Krista works with students and faculty for NurseTim and NurseThink to connect nursing education to clinical practice.

Tim Bristol, PhD, RN, CNE, ANEF, FAADN, FAAN

As an NCLEX and Curriculum Development specialist, Dr. Bristol has worked with teams across the country at all levels of education and accreditation. He has led teams as a faculty member, administrator, and consultant where his experience includes initial program development, approval, interim reports, and reaccreditation. He specializes in active learning for class, clinical, and lab environments. Schools and government organizations consult with Tim to integrate new standards, curricular innovation, educational accessibility, and development of strategic plans for student retention and success. He has authored and contributed to numerous written works. Tim is currently a faculty member with Walden University, FSIL Nursing - Haiti, and owner of NurseTim, Inc.
